Design competition for a new Pavilion at the iconic Barangaroo precinct now open

With the Pier Pavilion design competition officially open, registered Australian architects are now able to prepare and enter their designs for this new and exciting harbourfront project.

Located in Barangaroo South, the Pier Pavilion will be an extension of Wulugul Walk, the Barangaroo section of the 14 kilometre harbour foreshore walk stretching from Woolloomooloo to Glebe.

It is envisaged that the Pier Pavilion will become an engaging and comfortable place for everyone to enjoy and use. It will be flexible to accommodate a broad range of programmed events and activations as well as offering a protected space for the public to gather and relax.

The competition jury, comprising of leading figures in the Australian architectural community, are looking for design ideas that embrace Barangaroo's commitment to design excellence, world-class public spaces and sustainability.

Up to five entrants from Stage 1 will be shortlisted by the jury and invited to develop their designs in Stage 2 where they will be paid \$50,000 for their participation.

The winner of the competition will have the opportunity to follow the project through to construction and bring their idea to life.

Interested architects can now download the Competition Brief, Conditions and attachments from the [website](#).

All entrants will have until 11am 6 August 2020, Australian Eastern Standard time to enter their designs.

The Pier Pavilion will be constructed on Watermans Cove, a new public amphitheatre to the harbour. Construction of Watermans Cove is due for completion by the end of 2020.

Competition jury members

The competition entries will be assessed by a five person jury from the Australian architectural community, which will comprise:

- Robert Nation AM, Barangaroo Design Advisor
- Bridget Smyth, Design Director, City of Sydney
- Abbie Galvin, New South Wales Government Architect
- Peter Poulet, Professor of Practice (Architecture), Western Sydney University
- Kim Crestani, City Architect, City of Parramatta
