Out of hours works – Structural steel installation

Dear neighbour

The NSW Government is redeveloping the Sydney Football Stadium into a modern, world-class venue, to ensure Sydney has a sporting and entertainment precinct of an international standard.

As part of the redevelopment, out of hours works are required for the installation of the stadium roof structure elements, comprising of arch trusses, tension ring, and diagrid.

Due to wind and temperature tolerances, the early morning and evening periods will best facilitate the safe lifting of the large structural roof steel into place.

The works have been approved by the Department of Planning, Industry and Environment and all required permits and approvals have been granted.

Hours of work

These works will commence on 18 or 19 May 2021 and take several months to complete. A total of approximately 40 nights will be required to complete the works (weather permitting). Out of hours works will be required two to three nights a week. We will keep our neighbours updated on progress.

Works are scheduled on the following dates and times next week:

- **Tuesday 18 May:** 3am to 6am and 6pm to 8pm OR **Wednesday 19 May:** 3am to 6am and 6pm to 8pm

The site manager will be contactable during the out of hours work on 0417 575 958.

Affected residents will be provided with a weekly notice outlining upcoming works. The weekly notices are also published on the project website.

What to expect

There may be some potential impacts to project neighbours. We will take all feasible and reasonable measures to minimise noise and other impacts during these works.

Noise monitoring will be conducted and where noise levels are confirmed to exceed predicted allowable levels, appropriate respite will be offered to affected residents.

Works will not occur on two consecutive days to provide respite to residents. No out of hours works will be carried out on weekends or public holidays.
